A fixed annuity is a long-term, tax-deferred product designed for retirement savings and has limitations, including surrender charges apply. Guarantees are based on the strength and claims-paying ability of Royal Neighbors. Not FDIC insured - may lose value. The current interest rate will be held on Single Premium Deferred Annuity applications. Income provided will be based on the interest rates in effect on the date funds are received. Guaranteed for the first three, five, or six certificate years depending on the product; after which the current renewal rate will apply. At the end of the initial guaranteed interest rate period, the annuity will continue to earn tax-deferred interest at a rate set by Royal Neighbors, not less than the minimum guaranteed rate stated in the annuity contract until maturity.

Withdrawals and surrenders will reduce the cash surrender value and death benefit of the certificate. As a general rule, withdrawals and surrenders are taxable to the extent they exceed the cost basis of the certificate, and may also be subject to a 10% federal income tax penalty if any withdrawal taken prior to age 59 ½. Tax laws are complex and subject to change. Please consult with a qualified tax professional about the potential impact of any surrender or withdrawal.

Annuities not available in all states. Contractual provisions and limitations may vary by state. Annuities are products of the insurance industry and are not guaranteed by any bank or credit union. They are not insured by the FDIC or any federal government agency. They are not a deposit and may lose value.

Royal Neighbors Choice Series Annuities
Could Be the Right Choice for You

Royal Neighbors Choice Series allows for one initial lump-sum premium. It will earn interest, tax-deferred, until maturity, which provides guaranteed growth. Choice Series Annuities provide you an initial guaranteed interest rate over 3, 5, or 6 years. After the initial guaranteed interest rate period is over, all Choice Series Annuities cannot credit interest below a minimum guaranteed interest rate. This minimum guaranteed rate is determined by a formula, and will not exceed 3% or be less than 1%, depending on current market conditions. With a minimum guaranteed interest rate, you will be accumulating retirement savings with a guaranteed return.
